Sansuyu Flower Festival March

The cornelian cherry tree habitat spread across Dorip-ri, Gyeongsan-ri, and Songmal-ri in Baeksa-myeon turns entire villages yellow in spring. Cornelian cherry trees that are over a century old form a natural habitat, blooming yellow flowers in spring and bearing red fruit in autumn. In the backdrop of this landscape, villages host a variety of events such as cornelian cherry tree photography exhibitions, traditional games, and more.
